Learners

# Leveled instruction in a highly engaging environment

The Leapster® Portable Technology Center (PTC) provides engaging, multisensory instruction through handheld personal learning tools (PLTs) that are easy for teachers and students to use as technology stations.

The Leapster handheld PLTs engage students with technology that they enjoy, while providing an individualized learning experience. Leapster cartridges adapt to students' skill levels and rates of progress, allowing students to work at their own pace, in the classroom or at home.

The Leapster PTC is available in three configurations:

- **Leapster Story Explorers** accelerates development of essential language skills to prepare English language learners for literacy and academic success.
- **Grade-Level Kits** provide instruction and practice in reading, math, spelling, and critical thinking curriculum at multiple skill and grade levels. Built-in tutorials guide students through usage and curriculum.
- **Expansion Kits** extend access to engaging, interactive skill practice in the classroom or at home.

*"Story Explorers has helped my English language learners. My students love to use Leapster because they feel motivated. Students can repeat and review the activities as many times as they need for them to learn. All the activities are amazingly designed for students to meet English language proficiency. And with the teacher reports, I can always check the progress of my students."*

Natalia Del Pozo  
Grade 2 Teacher, Richmond, CA

## Story Explorers for English Language Learners (K–3)

- Screen-based handheld technology immerses students in interactive story narratives and engaging vocabulary, phonemic awareness, syntax, and comprehension activities.
- Spanish audio support provides scaffolding to English language content.
- Teacher reports show student progress, while built-in learning paths allow students to progress at their own pace.
- Full-color student practice books provide writing extension activities.

**NEW!**

## Grade-Level Kits (K–2)

- Grade-level cross-curricular titles focus on building competency in reading, language arts, and math.
- The Leapster PTC includes student practice books, to demonstrate mastery of skills and knowledge.

<b>Grade K</b>	Covers 45 essential skills including logical reasoning, letter names and sounds, word recognition, classification, patterns, numbers and counting
<b>Grade 1</b>	Covers over 70 essential skills including compound words, spelling, sentence structure, addition and subtraction, shapes and fractions
<b>Grade 2</b>	Covers over 50 essential skills including spelling, vocabulary and reading comprehension, regrouping equations, and math facts/mental math in addition, subtraction, and multiplication

For the complete scope & sequence, visit:  
[LeapFrogSchoolHouse.com/Leapster](http://LeapFrogSchoolHouse.com/Leapster)

### Research shows:

In a six-week study of the Leapster™ PTC, kindergarten students improved 81% on a letter identification test, and first and second graders made 16% gains on an assessment of phonics skills. ## Expansion Kits (PreK–Grade 1)

- Expansion kits serve remedial or advanced students and allow teachers to share the Leapster handhelds in the base kit with another classroom.
- Cartridges in the expansion kits can also be sent home with Leapster handhelds in Leapster carrying cases to extend interactive learning into the home.

<b>Literacy Expansion Kit</b>	Skill practice on letter names and sounds, writing letters, phonics, word building, and listening skills
<b>Math Expansion Kit</b>	Skill practice on counting to 100, writing numbers, sequencing, time, and addition and subtraction
<b>English Learner's Expansion Kit</b>	Accelerate language learning with English content that focuses on listening skills, letter sounds, word building, vocabulary, colors, and numbers
<b>Spanish Cross-Curricular Expansion Kit</b>	Engage students at home with Spanish language cartridges that support review of letter sounds, math, science, and other essential skills
<b>Cross-Curricular Expansion Kit</b>	Extend learning into the home with enjoyable instruction on letters, phonics, science, animals, counting, matching, money, addition, and reasoning skills

Expansion kits feature characters students know and love such as Dora, Clifford, and Nemo.
